The Government approve the proposal of the Surgeon-General that the relaxation of the rules in G.O.No. 2797 Public Health dated 27-10-37, as subsequently amended, should be continued for a further period of three years, so that candidates who have completed the S.S.L.C. with chemistry or Physics as their optional subject, may be admitted for compounders' training. The Surgeon-General is informed that this relaxation should be resorted to, only when fully qualified candidates are not available. Advertisement calling for applications should state that preference will be given to fully qualified candidates.
